

UR Marking

UR Marking (UL Component Recognition): Underwriters' Laboratories, Inc. (UL) is chartered as a non-profit organization founded in 1894, to establish, maintain, and operate laboratories for the examination and testing of devices, systems, and materials. UL presently publishes more than 250 Standards for Safety for materials, devices, constructions and methods. UL also undertakes numerous research projects in areas of safety

The UR marking is a recognized component marking authorized by UL that can be supplied on any Baldor-Reliance motor except Hazardous Location Division 1 motors as requested.

Recognized Component Mark

This mark is specifically used on component parts that are part of a larger product or system. These components may have restrictions on their performance or may be incomplete in construction. The Component Recognition marking is found on a wide range of products, including some switches, power supplies, printed wiring boards, some kinds of industrial control equipment and thousands of other products.

RELIANCE FILE NUMBERS

Recognized Motor Components reference File E54825

Recognized Insulation Materials reference File E39972

NOTE: See Hazardous Location HELP on Rating/Enclosure page for UL Listing information on Division 1 motors.
